- 30 minutes to Vienna's main railway station/Hauptbahnhof
- 35 minutes to Stephansplatz/City Centre

# Vienna's new Fine Art Warehouse

Vienna has a new fine art warehouse  
in the 23rd district,  
built to the very latest standards  
by hs art service austria.

## ■ Construction & Energy Efficiency

The entire building is rendered in solid concrete. Energy generation, heating and cooling are provided by means of a water heat pump system as well as thermally activated construction elements. Additional energy is generated through a photovoltaic system. Furthermore, ventilation and aeration is centrally controlled via a mechanical ventilation system. The entire building has air locks and keeps a stable climate year-round.

---

## ■ Storage Features

According to your individual needs and wishes storage areas can flexibly be adjusted for your artworks and valuable objects. Picture drawers, roller shelf units, heavy load capacity shelving, archive filing cabinets and lockable cabins are all part of our offering. The ceiling height is up to 410cm. If required, we can also arrange collection management for you.

---

## ■ Maximum Security

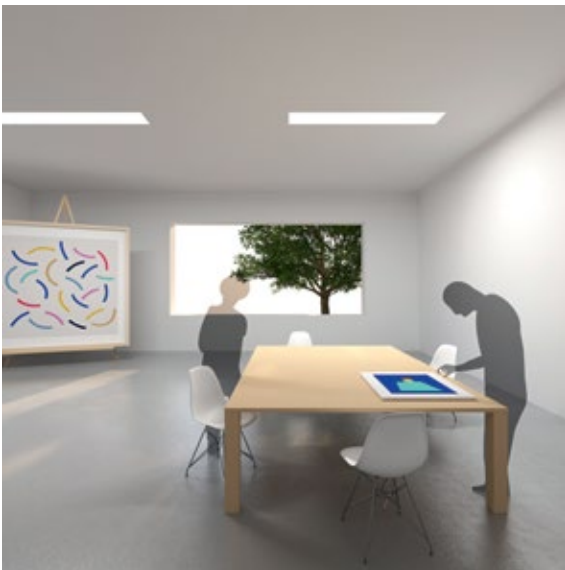

We are committed to offering maximum security. Thus, we maintain direct links with the police and the fire brigade 24/7 in addition to protecting the entire facility by an alarm system. Furthermore, we also have video surveillance, motion sensors and an electronic access control system installed. An automatic fire alarm is combined with an Inergen gas extinguishing system.

---

## ■ Bonded Warehouse

Since 2006 we have been operating Austria's first bonded warehouse for art and culture. With us you can discreetly store artworks from non-EU countries duty-free – a service much appreciated by museums, galleries and individuals. Needless to say, we can also present your artworks to potential buyers in a flawless setting.

---

## ■ Work Spaces for Restorers

We offer spaces within our warehouse, where restorers can work on artworks and write up condition reports. Of course, we collaborate closely with the best restorers.

---

## ■ Presentation & Showrooms

Sometimes people want to simply enjoy their artwork. Whether you would like to view a stored artwork yourself or show it to others, we invite you to view your perfectly presented pieces in rooms especially designed for this purpose.

---

## ■ Fine Art Transport & Logistics

Our own special fleet of vehicles ranges from minivan artwork transporters to jumbo trailers. All vehicles are equipped with GPS tracking and combine a climate-controlled, air-suspended and alarm secured load area.

---

## ■ Production & Packaging

Our packaging specialists provide customised packaging systems based upon methods that combine the latest technology.

---

## ■ Customs & Administration

We have our own customs department that works closely together with the Austrian customs authority via the e-zoll system. As a result, our experienced specialists guarantee highest security and discretion.

---

## ■ Museum & Exhibition Service

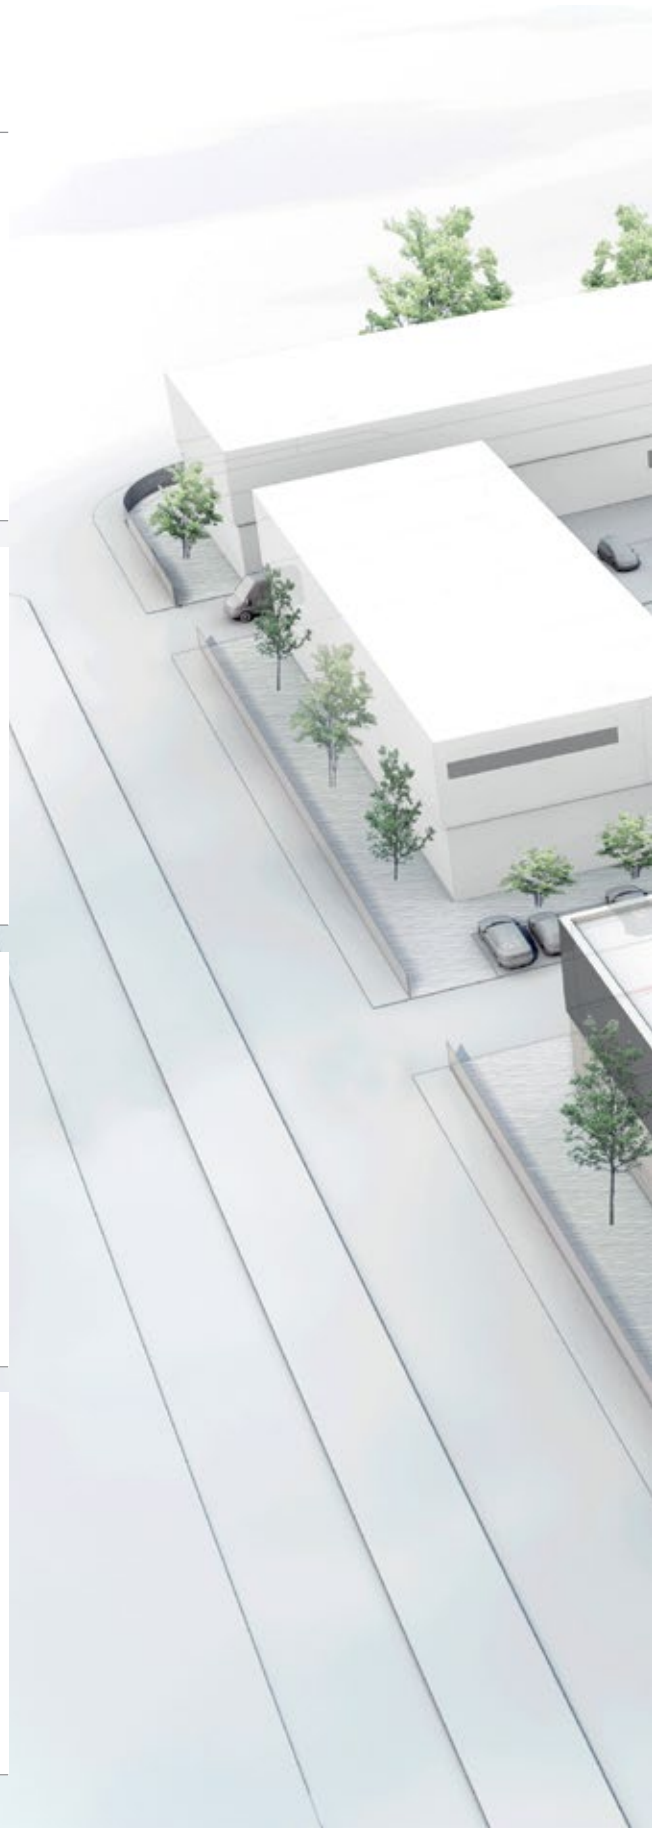

To present your artworks in the best possible way, we undertake exhibition planning and design, art handling as well as the organisation of art fairs; we also rent out exhibition equipment. Only with the right setting can the full effect come across!

---

## ■ Personalised Service

Our extensive know-how guarantees customer requirements are realised to highest standards. As a general contractor, we offer 360° planning and implementation based on individual needs.

---

# Art Competence Center

As a full-service supplier, we are able to offer  
all essential services under one roof:
